OVER

The Gladiolus, The King of Flowers

Would you like to know more about growing Gladiolus? Would you like to know how to make them bloom like your neighbors? Wouldn't it please you to be able to produce these long spikes with many flowers open, such as you see at the flower shows or in your florist's show windows? Would it be interesting to you to know what new varieties are being created; their color, size, and price?

There are no secrets in all these. If you will become a member of the American Gladiolus Society, you will receive its beautiful 32-page monthly "Bulletin," which explains all these things and teaches you how to grow them as good as the professional. The "Bulletin" will also teach you the best varieties and proper colors to grow for different effects and purposes.

Why have nearly four thousand amateurs joined the Society in the past five years? They are "in search of knowledge," and the best place to find it is in the columns of the A. G. S. Official "Bulletin," any issue of which is worth the full cost of membership.

Garden & Home Builder is published in a 20-acre garden—a vast experimental station. Here every new plant, new spray and insecticide, and new cultural method is tested. The results come to you each month in this reliable, fully illustrated periodical. It helps with every phase of garden work in every kind of a garden.

This magazine has been enlarged, its policy broadened, its name changed to Garden & Home Builder,—to help with the house as well as with the garden. With more garden material than ever, this is the best garden and home magazine published.
